# CRANES

# Jekko SPD360

- Designed to operate in narrow places where space is restricted
- Compact travel width and height at less than 79cm wide (2ft 7inches) and 199cm tall (6ft 6inches)
- Easy to transport at only 2395Kg
- Can work in all sorts of tight locates from stairs and passageways, to shopping malls and subterranean spaces
- Can reach up to 13m high with fly-jib
- Quick and easy to setup
- Full 360 degree rotating boom

# Main Boom & Fly Jib – Duty Chart (kg, m)

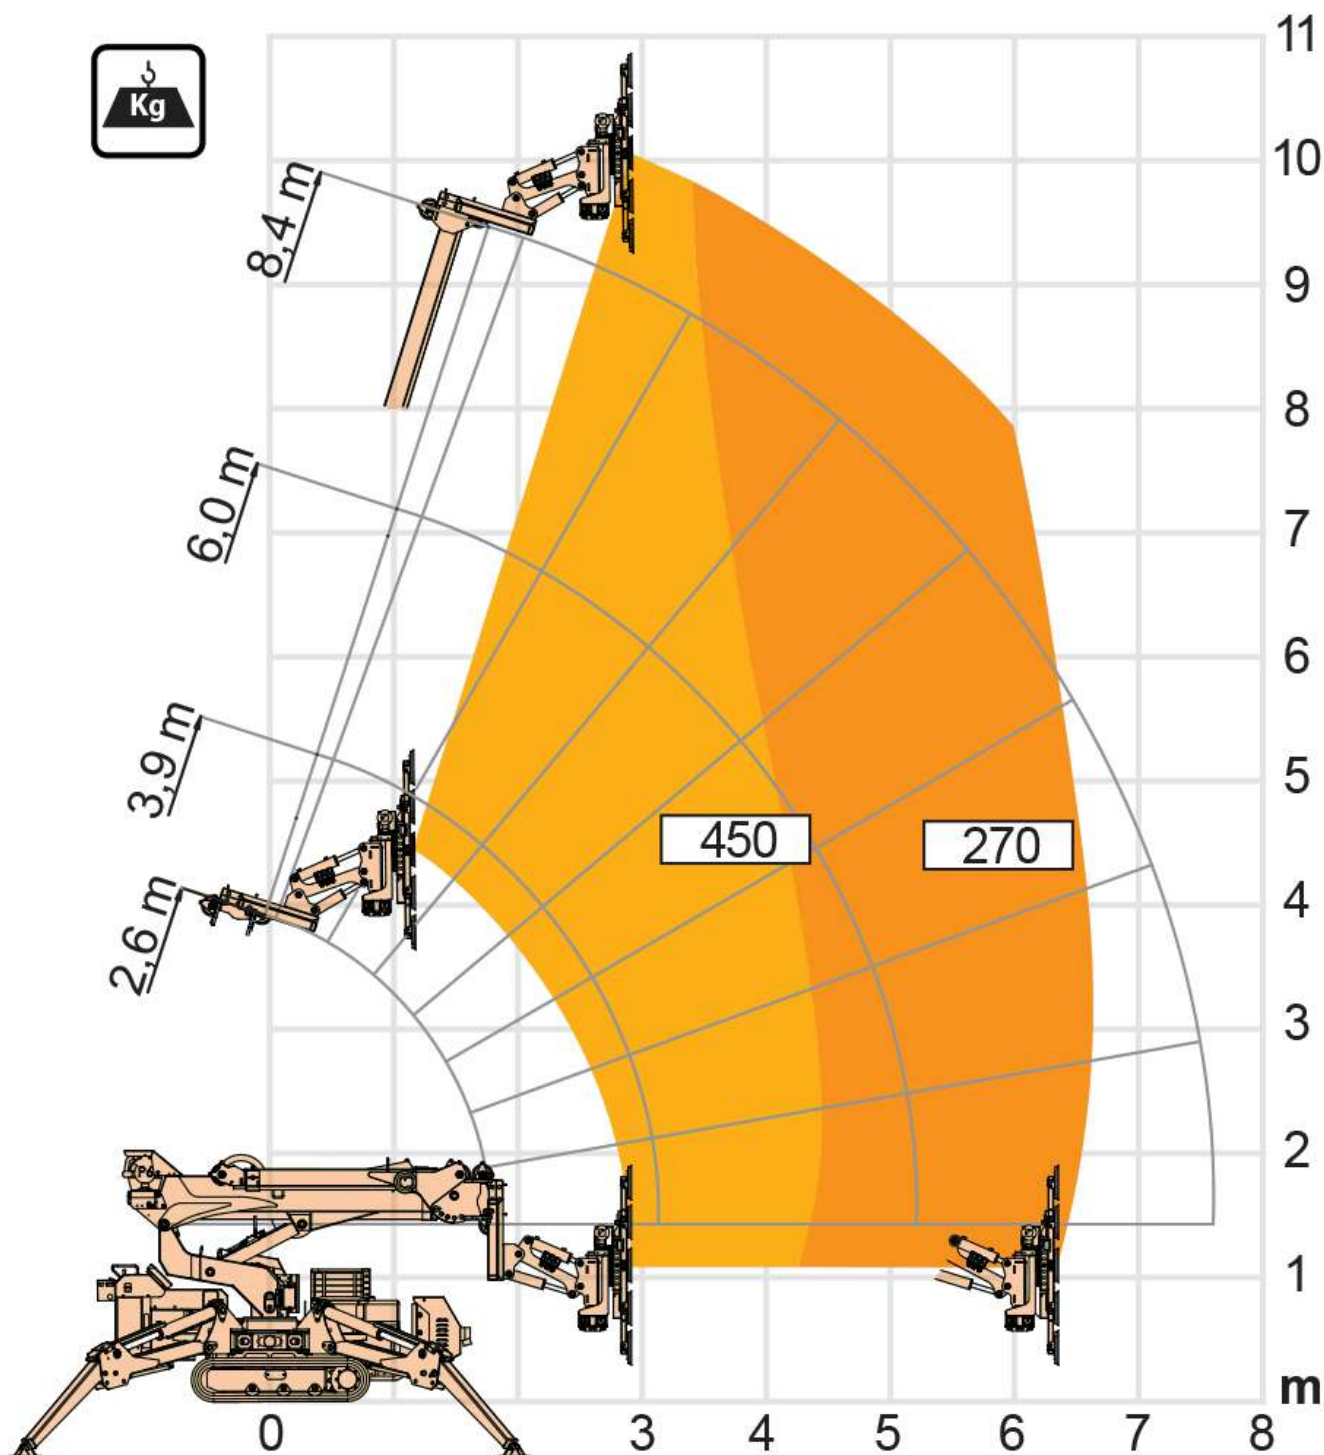

2,1 - 3,4 m

## Main Boom & Vacuum Manipulator – Duty Chart

The MR800 Vacuum Manipulator is the ideal tool for precision lifting of sheet materials (like glass or installation slabs) into elevated locations. Coupled with the SP360's compact design means this unit will fit into most large maintenance lifts (0.8m x 3.1m x 2m @ 2300Kg) and is the ideal facilitator for building development and maintenance. The SP360 combined with the MR800 have the ability to securely lift 450kg of glass 10m high (at the center of MR800).
